***Building
the future
on a
foundation of
excellence...***

ABOUT US

Engineering Excellence. Building Trust.

At ARG Engicon LLP, we believe every landmark begins with a foundation of technical precision and unwavering accountability. While our firm represents a modern, agile era of construction, we are built upon a distinguished 20-year legacy of industrial and engineering leadership.

OUR EXPERTISE

We specialize in delivering high-performance, integrated EPC and Turnkey solutions across the Industrial, Commercial, and Urban sectors. By moving beyond traditional contracting, we eliminate project fragmentation and optimize the entire lifecycle—from concept to commissioning.

OUR APPROACH

Our approach is defined by technical rigor, disciplined execution, and a 'Zero Harm' safety culture. Backed by veteran expertise and modern methodologies, we don't just execute projects; we engineer the structural integrity and professional trust that sustain them.

OUR COMMITMENT

As we expand our footprint, we remain dedicated to transforming complex requirements into value-driven, enduring assets.

OUR PROMISE

INTEGRITY

We uphold honesty, transparency, and strong ethical values.

INNOVATION

We embrace new ideas and technologies to create better solutions.

EXCELLENCE

We are committed to delivering quality, exceeding expectations, every time.

PARTNERSHIP

We build lasting relationships based on trust and mutual success.

info@argengicon.com

MISSION

To deliver integrated EPC and construction solutions through technical precision and disciplined execution, ensuring every project is a testament to safety, quality, and enduring client trust.

VISION

To be the preferred partner for precision engineering, transforming complex industrial and urban requirements into high-performance, value-driven landmarks.

CORE VALUES

Excellence in Quality

We are committed to delivering work that consistently meets and exceeds established engineering standards through rigorous quality control and attention to detail.

Integrity and Professional Ethics

We uphold the highest standards of integrity, ensuring transparency, accountability, and ethical conduct in all our engagements.

Health, Safety & Environment (HSE)

We prioritize a zero-compromise approach to safety by embedding robust health, safety, and environmental practices across all project activities.

Client-Centric Approach

We focus on understanding client objectives and delivering solutions that align with their expectations, timelines, and business goals.

Accountability in Execution

We take ownership of our commitments and ensure disciplined, result-oriented execution at every stage of the project lifecycle.

Collaborative Approach

We foster strong coordination and teamwork among all stakeholders to achieve efficient and seamless project delivery.

Continuous Enhancement

We are committed to ongoing improvement by adopting best practices, leveraging industry advancements, and strengthening our operational capabilities.

MESSAGE FROM THE FOUNDER

“

Construction is a discipline of absolute accountability. Rooted in over two decades of multi-disciplinary expertise navigating the complexities of the industrial landscape, I conceptualized **ARG Engicon LLP** to redefine the standards of integrated engineering.

While our firm represents a modern, agile era of construction, it is built upon a distinguished 20-year foundation of technical rigor and project excellence. We have moved beyond the limitations of traditional contracting to implement a disciplined EPC and Turnkey framework. This integrated approach is engineered to eliminate fragmentation, optimize the project lifecycle, and deliver high-performance assets across the Industrial, Urban, and Institutional sectors.

Our commitment is non-negotiable: we operate on the principles of technical precision, transparent ethics, and a 'Zero Harm' safety culture. We do not merely execute projects; we engineer the structural integrity and professional trust that sustain them.

We invite you to partner with a team that views your vision through the lens of engineering excellence and uncompromising execution.

RUPESH GAUTAM

INTEGRATED DESIGN & CIVIL GOVERNANCE

FOCUS: ARCHITECTURE AND CIVIL EXECUTION

THE STRATEGIC VISION:

At ARG Engicon, we bridge the gap between aesthetic vision and industrial functionality . Our design philosophy prioritizes spatial optimization and operational flow, ensuring every structure is engineered for high-performance use while maintaining strict adherence to safety and sustainability codes .

THE EXECUTION MANDATE:

We transform architectural blueprints into resilient physical assets through disciplined civil engineering. By integrating advanced site governance with innovative construction techniques, we manage structural integrity and regulatory compliance to ensure every build stands as a benchmark of durability .

ADVANCED STRUCTURAL & MEP ENGINEERING

FOCUS: LOAD ANALYSIS AND SYSTEM INTEGRATION

COMPUTATIONAL STRUCTURAL EXCELLENCE:

Our structural team utilizes advanced computational analysis to create robust, high-load frameworks for industrial environments. By meticulously engineering every joint and member, we guarantee structural stability and longevity, ensuring resilience that stands the test of time.

INTEGRATED MEP RELIABILITY:

We design and deploy Mechanical, Electrical, and Plumbing (MEP) systems focused on uninterrupted reliability and energy efficiency. Through BIM-driven coordination, we ensure seamless system integration that minimizes operational costs and maximizes long-term facility performance.

DESIGN AND ENGINEERING CAPABILITIES

Tekla
Structures

**PEB Design from
Concept to
Reality.**

Tailor-made building based on client's requirement & actual design calculations using tapered sections.

A combination of built-up sections, hot rolled section, cold-formed elements and profiled sheets

Designing and casting are done in the factory and Building components are brought to the site

Then fixed/joined at the site

All connections are bolted.

QUALITY SERVICES

At ARG Engicon, quality is not a final inspection; it is an integrated engineering discipline. Our rigorous Quality Assurance and Quality Control (QA/QC) protocols ensure that every structural element and material batch adheres to stringent global and IS/BIS standards.

From conceptual planning to final handover, we enforce systematic audits, precision testing, and a "Right-First-Time" execution strategy. We are committed to eliminating re-work and delivering high-performance, defect-free assets that guarantee operational durability for our corporate partners.

OUR QUALITY COMMITMENT

RIGOROUS STANDARDS

We follow strict quality standards at every stage of the project lifecycle.

ATTENTION TO DETAIL

Every element is carefully inspected to ensure precision and reliability.

BEST INDUSTRY PRACTICES

We adhere to globally recognized standards and compliance norms.

CLIENT SATISFACTION

Our focus is to deliver defect-free assets that exceed expectations.

TESTS

Our quality services ensure that every batch of material meets the highest industry standards. We conduct rigorous testing and analysis throughout the process.

ENVIRONMENT, HEALTH & SAFETY

The ARG Safeguard —
Our “Zero Harm” mandate integrates proactive engineering controls, an absolute “Stop Work Authority” for all personnel, and a “Minimum Impact” environmental philosophy to ensure that technical excellence never compromises human or ecological safety.

OUR EHS PRACTICES

TRAINING & AWARENESS

- Job-specific training programs
- Daily and weekly toolbox talks
- Safety park induction sessions

SITE ENTRY PROTOCOL

- Daily entry following guidelines
- Induction for new labourers
- Access protocols for workplaces

SAFE SITE INFRASTRUCTURE

- RO drinking water arrangements
- Separate access routes for men, machinery & office premises
- Labour accommodation safety

EQUIPMENT SAFETY

- Power tools inspected regularly
- Green-tag marking for safe use
- Scaffolding tags: Safe / Unsafe to Use

EMERGENCY PREPAREDNESS

- Basic first-aid mock drill training
- Pest control at site & labour camps
- LUGS monitoring before night work

MONITORING & REPORTING

- EHS statistics at site entrance
- Daily compliance tracking
- Continuous monitoring and improvements

Zero harm through awareness,
accountability, and proactive prevention.
